THE GUARANTEE OF AN ITALIAN TRADITION

OFFSHORE C.N. is an Italian company working with passion inside the field of design and construction of high standard luxury boats following a perfect balance of high performance and stylish lines and creating products unique on the market.

This experience started in 1987 in Gaeta, a typical Italian coastal town between Rome and Naples, and within few years it became known all over the world thanks to its victories and awards during Offshore Endurance Championships and events.

SuperClassic
★

In 2001 **OFFSHORE C.N.** decided to test its *Super Classic 40* and its high performance inside the *Endurance World Championship*, winning national and international prizes and breaking the *World Speed Record twice*, in the same year and again in 2003. After the win of the world's oldest powerboat racing prize, the *British International Harmsworth Trophy*, *Super Classic 40* gave the proof of its superiority and avant-garde, relegating all other constructions and hulls in the yachting world to the distant past.

The company is certified **ISO 9001:2008** for the design, building and maintenance of pleasure and professional boats.

OFFSHORE C.N. offers a wide range of models that starts from 16ft up to 60 ft, with the opportunity to choose not just the type of engine and the various colours but also the layout of the interior of the boats. The result is an absolutely unique piece of art.

OFFSHORE Design Studio is always active in the testing and implementation of new technologies, including the use of innovative materials such as carbon fiber.

The new line of tenders for super yachts is currently in the design phase.

The main feature is always improving the previous models, learning from the past to establish a new and exclusive way of experiencing the sea.

SuperClassic 40

DISCOVER THE PLEASURE OF OWNING HER

TOP PERFORMANCE

SC 40. A real winner. She will transmit you deep emotions. She responds very well at low speed, yet her performance blooms as speed increases.

She doesn't fear any competitors.

The unique project of the hull provides high speed also with low engine power.

Prompt acceleration and fast response to gear shifting.

A perfect driving position for real sporting souls.

CHARMING DESIGN

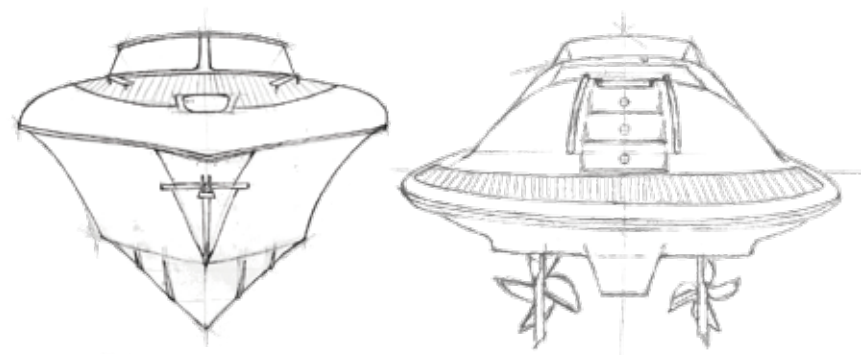

SC 40. One of a kind. At first sight you will be fascinated by her clean and sculptured shapes.

Sleek lines, smooth surfaces, due proportions.

The perfect combination between advanced technology and design.

Dynamic, elegant and comfortable, perfect for your family, your friends, for yourself...

It is the dream you always wished for.

SuperClassic

*"If a man must be obsessed by something I suppose a boat is as good as anything,
perhaps a bit better than most"*

E.B. WHITE

Roberto Buonomo, founder, engineer and designer of **OFFSHORE C.N.**, has always distinguished himself by his continuous search of innovative solutions in order to satisfy costumers' needs.

With his mind in the future and his pen in the present, he has succeeded in creating a company that not only reflects his own ideas but also make his creations a full expression of his love for the sea and fearful respect for its strength.

OFFSHORE DRIVING ACADEMY

LUXURY · EMOTIONS · SPORTS

BY OFFSHORE CN

In June 2006 **OFFSHORE C.N.** launched the ***OFFSHORE DRIVING ACADEMY***, the first academy dedicated to the training of drivers (8+ yrs) and crews on board of high performance boats, collaborating with Universities Research Centres and member of F.I.M., C.O.N.I. and U.I.M.

OUR EXPERIENCES

PROFESSIONAL PROGRAMM

Designed to offer the right knowlege and skills to make the most of SuperClassic boats, giving to the drivers endurance racing experiences.

The typical courses are split into two parts: one in Gaeta, Italian Offshore's hadquarters, for almost 2 weeks and the other one on site, where the boats should work.

Inside the programm is scheduled also a module about the actual operation principles of the boat, like mechanics, electical circuits, in order to allow the crew to be ready to fix the units in case of need.

OUR EXPERIENCES

ONE MAKE SUPERCLASSIC COMPETITION

It was an exclusive competition from Gaeta to Capri reserved for the SuperClassic owners, created to consolidate the relationship between the shipyard and its costumers.

They took less than an hour to reach the island (60 miles) and there they had a unique award ceremony inside Capri Yacht Club.

“Fast and safe boats”, said Buonomo, “those are the main features of our boats and everyone could see it during the race , especially thanks to the rough sea. This competition is the perfect mix of good fun, adrenalin and sports spirit”

OUR EXPERIENCES

CHILDREN EVENTS

Great participation for a fantastic project developed in partnership with F.I.M. and C.O.N.I. to introduce the children from 8 years old to the speedboat driving and to another way to live the sea.

On rubber boats, the participants were guided through a circuit where they could experience what driving means inside a competition environment.

At the end of the day the guys recieved a certification of participation.
